

# SCHOOL PROGRAMMING 2025

## Jasper County Conservation

### WHAT'S NEW IN CONSERVATION

#### Nature Center

Phase 1 of the Dana King Ceretti Environmental Education Center is projected to be finished later this fall and Phase 2 is starting next spring!

We'll be moving into our new center, located at "Kramer Park," this fall and having a grand opening later this year.

#### Staff Change

Jade Read will not be coming back to JCCB after having her baby and the county supervisors have not approved replacing her position. Because of this, we are limited on how many programs we can offer.

#### Scheduling Programs

In order to better reach everyone, each K-12 class is limited to a total of 4 classroom/field trip programs per school year and preK is limited to 2-3, depending on availability.

Please give us a call or send an email to discuss how we can best work with you and your class! Email Katie at [kcantu@jasperia.org](mailto:kcantu@jasperia.org) for scheduling.
